

Cadillac

2015 CTS

CTS

ATHLETES ARE BUILT  
ONE GRAM AT A TIME.

No detail overlooked. From its signature LED lighting to its ingenious, lightweight aluminum doors to its remarkably powerful engines, every gram of material in the CTS had to justify its existence. Created in turn is a beautifully crafted vehicle that stands out among the world's finest on the road.

CTS GOT DOWN TO  
FIGHTING WEIGHT.

Less is more powerful. As one of the lightest Rear-Wheel-Drive car in its class, CTS is 128 kg lighter than the previous-generation CTS. To validate its credentials, we pushed CTS to its limit on Germany's famed Nürburgring track. The outcome of such a tough regimen? Impressive acceleration, precise handling and brake feel worthy of a title.

PERFORMANCE  
**ART.**

Engineers achieved near-perfect 50/50 front-to-rear weight distribution through the innovative use of aluminum in the front shock towers and front suspension. Likewise, aluminum alloy door structures save approximately 33% in weight versus steel door structures. And it all comes together to provide enhanced drive dynamics, handling and quietness.

It's no coincidence that the **BREMBO® FRONT BRAKES** on CTS were inspired by those found on some of the world's most sophisticated race cars. Standard **MAGNETIC RIDE CONTROL** adjusts to the road up to 1,000 times per second, maintaining precise body control and chassis composure. The highly acclaimed, electric-assist speed-sensitive **ZF PREMIUM STEERING SYSTEM** helps save fuel and delivers precise

feel. **DRIVER SELECTABLE MODES** let you change the steering and transmission calibrations depending on road conditions or how aggressively you want to drive. These elements work together seamlessly, allowing CTS to deliver performance worthy of applause.

A blue Cadillac CTS is shown from a front-three-quarter perspective, driving on a winding road through a canyon. The car's headlights are on, and the background features a bright sunset or sunrise over the canyon walls. The text "CTS: 0 TO 100 IN 6.6 SPINE-TINGLING SECONDS." is overlaid in the upper left quadrant.

CTS: 0 TO 100 IN 6.6  
SPINE-TINGLING SECONDS.

Turbo on demand. At the heart of the CTS is a direct-injection 2.0L Turbo that puts out a staggering 276 hp and 400 Nm of torque. Enjoy the road with standard RWD or choose available ALL-WHEEL DRIVE with active-torque technology delivers impeccable control in less-than-perfect road conditions.

IF LOOKS COULD  
THRILL.

All the riveting performance of CTS is wrapped in something equally impressive. A long, low, lean design philosophy manifests itself in dramatic angles and sleek aerodynamics that keep CTS firmly planted. From the sculptural inlaid hood to the LEDs that light the way brilliantly, every refined detail adds up to a look that is completely unmistakable.

AT FIRST  
LIGHT.

CTS is instantly recognizable on the road, and much of the credit for that belongs to its brilliant and beautiful LED light design. Crystalline LED light guides are integrated into the front corners to provide smooth white illumination, while the decklid spoiler doubles as an LED center brake lamp. Standard HID headlamps equipped with Adaptive Forward Lighting, directing the headlamps to cast light precisely on your path of travel.

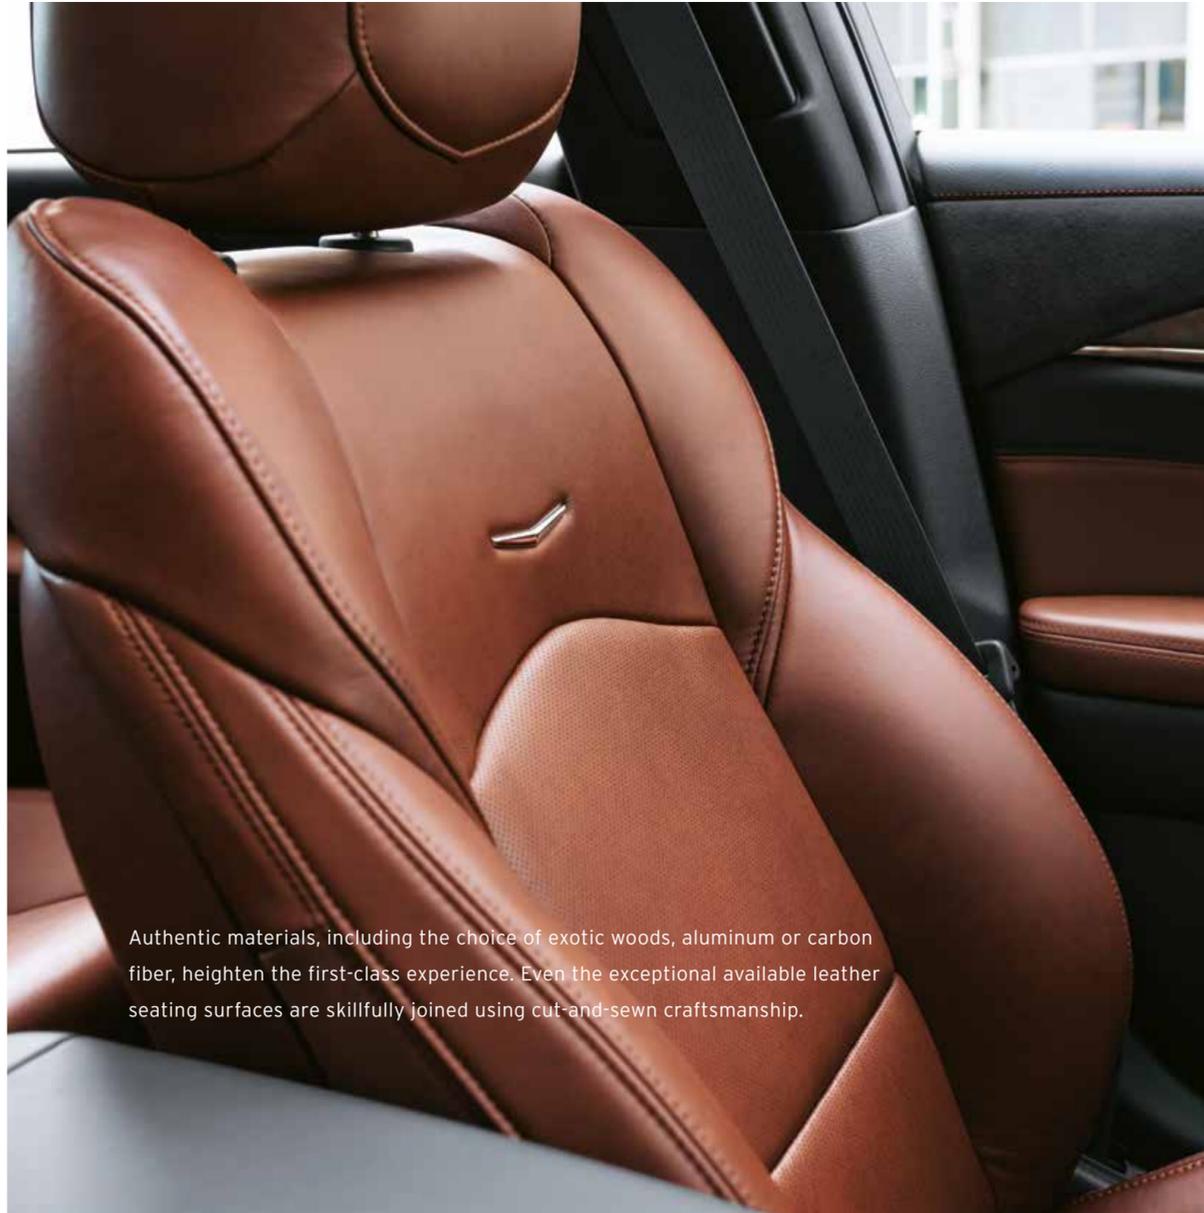

A detailed view of the driver's side interior of a Cadillac CTS. The image shows the leather-upholstered driver's seat, the steering wheel with the Cadillac logo, the instrument cluster, and the center console. The car is parked in front of a building with large glass windows, which are illuminated from within, creating a warm, golden glow. The overall atmosphere is sophisticated and modern.

A HIGHLY COVETED  
VANTAGE POINT.

An interior brilliantly designed to revolve harmoniously around you. With eight unique interior environments and convenient storage compartments in reach, there's no better place from which to see the road ahead than the driver's seat of a CTS.

YOUR WISH IS  
ITS COMMAND.

Choosing the Premium Collection model opens the door to a plethora of features. **20-WAY ADJUSTABLE SEATS** provide power-adjustable seatback bolsters and manual thigh support to help keep the driver and front passenger in total comfort. **RICH LEATHER SEATING** surfaces, heated and ventilated front seats, and heated rear outboard seats ensure the driver and passengers are comfortable during any season. **TRI-ZONE CLIMATE CONTROL** allows all passengers the ability to set the surrounding temperature. With the **HEATED STEERING WHEEL**, cold-weather relief is at hand. Enhanced **AMBIENT LIGHTING** subtly highlights the dash and door trim. When you need a cupholder, it appears with the touch of a button. When you don't, the **ELECTRONIC CUPHOLDER COVER** elegantly conceals it. The **ULTRAVIEW SUNROOF** spans both front and rear seats and gives the CTS an even more spacious feel.

Authentic materials, including the choice of exotic woods, aluminum or carbon fiber, heighten the first-class experience. Even the exceptional available leather seating surfaces are skillfully joined using cut-and-sewn craftsmanship.

INTELLIGENCE IS  
BLISS.

Access entertainment and information effortlessly with the Cadillac CUE<sup>1</sup> infotainment system with available navigation. Natural Voice Recognition<sup>2</sup> adds yet another level of brilliance. Combine this with the available full-color reconfigurable Head-Up Display, and you've discovered a technological work of art.

The available **REAR VISION CAMERA** with backup lines guides your path and lets you see behind the vehicle, while the available **AUTOMATIC PARKING ASSIST** system uses sensors to locate a parking spot that will accommodate your CTS, then steers your way into it. A visual warning also appears on the CUE screen as an added alert. Customize the available full-color instrument panel with **RECONFIGURABLE GAUGES** that offer four driver-selectable display modes. **WIRELESS CHARGING**<sup>3</sup> lets you leave the cords behind when you charge your compatible mobile phone or handheld device. **KEYLESS ACCESS** recognizes your key fob and automatically locks or unlocks the doors when you are coming or going. **ADAPTIVE REMOTE START** allows the engine to be started from up to 90 metres away and, depending on the outside temperature, activates the available heated and ventilated front seats. The **BOSE® AUDIO SYSTEM** provides a concert-like

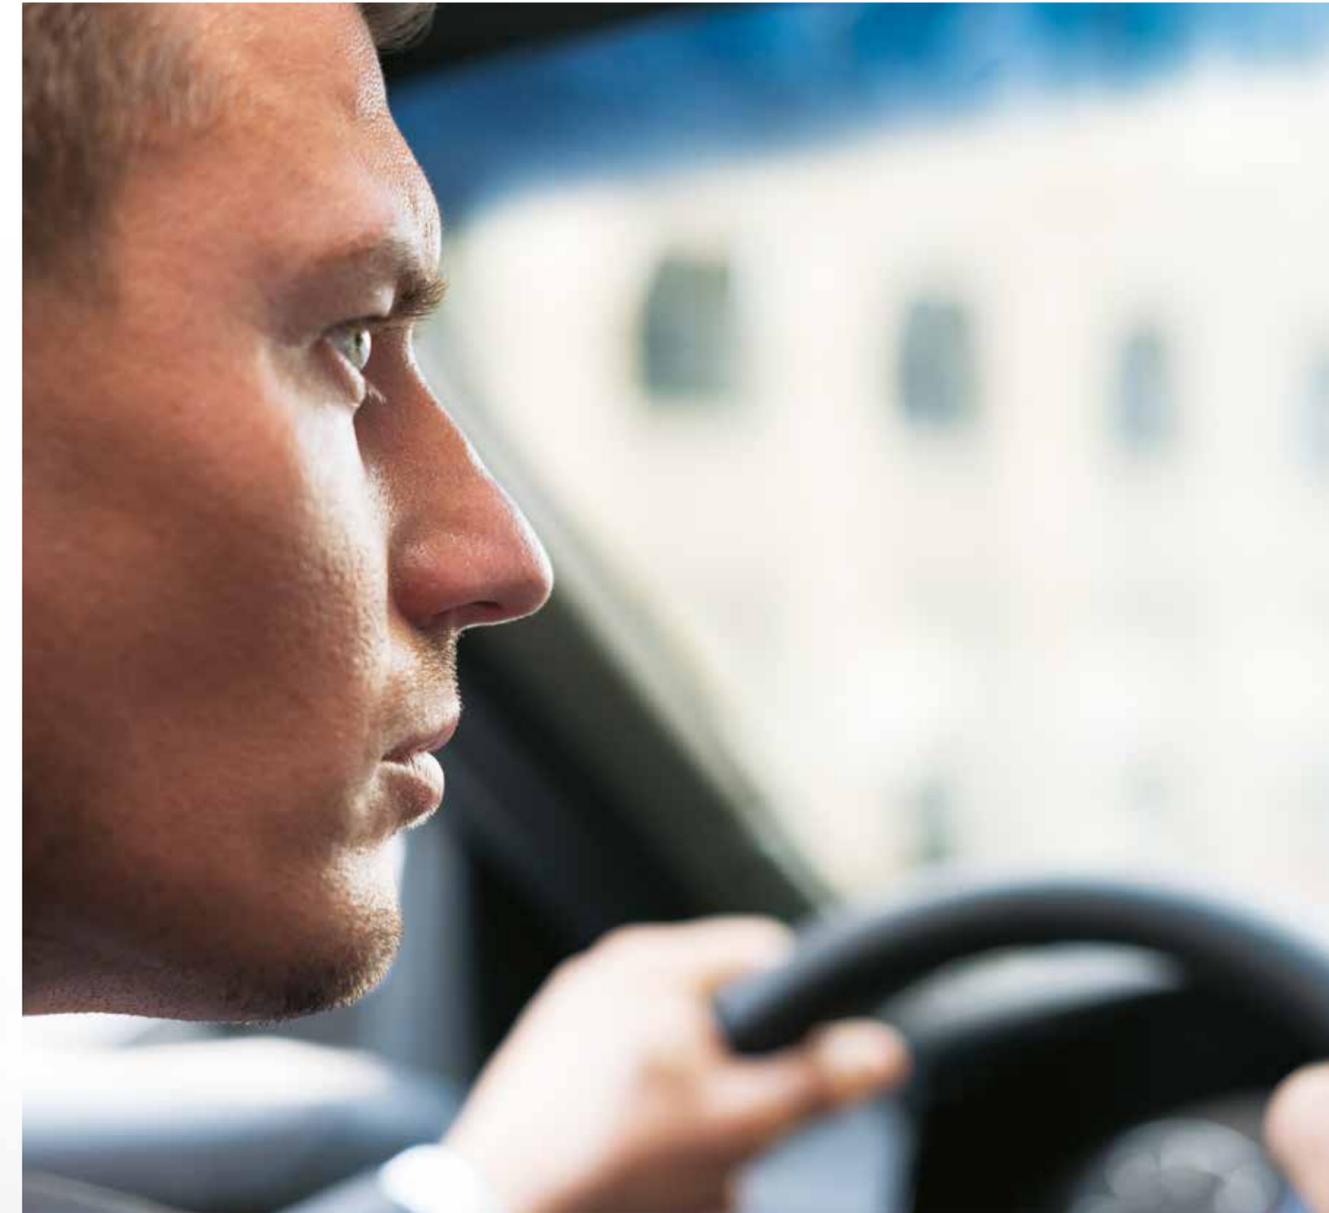

listening experience, while **BOSE AUDIOPILOT® ACTIVE NOISE CANCELLATION** reduces unwanted powertrain noise and provides a quieter in-cabin experience.

1. Full functionality requires compatible Bluetooth® and smartphone. Some devices require USB connectivity. 2. Voice recognition is available in the following languages: English, French, German, Italian, Portuguese, Spanish and Russian. 3. The system wirelessly charges one PMA- or Qi- compatible mobile device. Mobile phone must support wireless charging for functionality.

A BEAUTIFULLY SCULPTED  
BODYGUARD.

Constructed using ultra-high-strength steel, the CTS body incorporates crumple zones to help absorb and manage crash energy. And with 10 standard airbags, including knee airbags for driver and front passenger and side-impact airbags for outboard rear passengers, CTS works to keep you protected at every turn. An active pedestrian protection system is also standard.

DON'T MISS  
A THING.

LANE CHANGE ALERT

SIDE BLIND ZONE ALERT

LANE DEPARTURE WARNING  
WITH LANE KEEP ASSIST  
TRAFFIC SIGN RECOGNITION¹

FORWARD COLLISION ALERT  
ADAPTIVE CRUISE CONTROL

The available **DRIVER AWARENESS PACKAGE** includes a patented **SAFETY ALERT SEAT** that sends pulses through the seat cushion on the left or right or simultaneously, alerting you to a variety of potential hazards. **FORWARD COLLISION ALERT** uses a forward-facing front camera to detect and warn you when a front-end impact may be imminent. **LANE KEEP ASSIST** may gently turn the steering wheel if the vehicle approaches a detected lane marking without using a turn signal in that direction and may also provide a **LANE DEPARTURE WARNING** system alert if a lane marking is crossed without using a turn signal. **SIDE BLIND ZONE ALERT** alerts you with a side-mirror warning icon if a vehicle is in your blind spot before you merge or make a lane change. **LANE CHANGE ALERT** surveys the areas well beyond the side blind zones and flashes the side-mirror warning icon to alert you of rapidly approaching vehicles. **REAR CROSS-TRAFFIC ALERT** uses sensors to sweep the left and right areas to the sides of CTS when you back out of parking spots and alerts you to approaching vehicles. **TRAFFIC SIGN RECOGNITION¹** displays selected traffic signs on the Driver Information Display, such as speed limits and overtaking restrictions.

The **DRIVER ASSIST PACKAGE**, standard on the Premium Collection and available on the Performance Collection, features **ADAPTIVE CRUISE CONTROL**, which uses forward-looking radar and camera technology to conveniently maintain a driver-selected following distance

from the vehicle ahead, even in stop-and-go traffic. Included on the front seats is **AUTOMATIC SAFETY BELT TIGHTENING** to help keep your belt precisely where it needs to be. The **INTELLIGENT BRAKE ASSIST** system can detect vehicles in front or objects in the rear and, in certain situations, pre-fills the brakes to help reduce braking time.

1. Not available if Driver Assist Package is ordered.

1. Not available if Driver Assist Package is ordered. Safety features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times.

## ELEGANCE COLLECTION

**CUE WITH BOSE® SURROUND SOUND SYSTEM**  
A concert-like experience is always at hand with an 11-speaker Bose Surround Sound system and the brilliance of Cadillac CUE.

**HID HEADLAMPS WITH ADAPTIVE FORWARD LIGHTING**  
Standard HID headlights are equipped with a brilliant adaptive forward lighting system, directing the headlights to cast light precisely onto your path of travel.

**MAGNETIC RIDE CONTROL**  
including 3 selectable drive modes; tour, sport, snow & ice

With the CTS Elegance Collection, you'll discover sophistication in both its stunning looks and advanced engineering, all while being completely exhilarated by the extensive list of premium standard equipment. The convenience of CUE is standard, as is a premium Bose® Surround Sound system. Precision handling comes in the form of Magnetic Ride Control providing more control and speed through corners, reacting to the road up to 1,000 times per second, optimizing the engine power transfer to the wheels.

## LUXURY COLLECTION

**14-WAY ADJUSTABLE HEATED AND VENTILATED SEATS**

**DRIVER AWARENESS PACKAGE**  
Including features such as Side Blind Zone Alert

**18" PAINTED WHEELS**

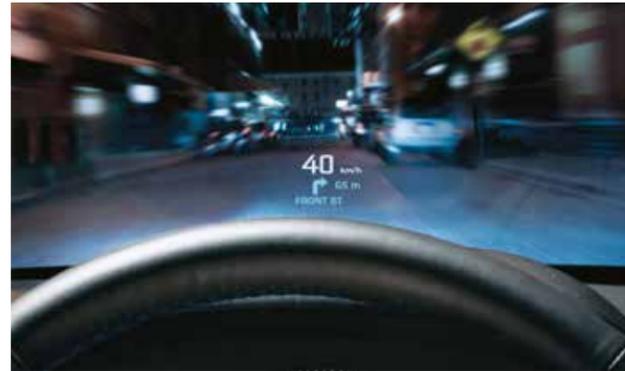

The Luxury Collection places a premium on your well-being. The driver and front passenger are enveloped in power-adjustable heated and ventilated seats, and everyone who enters enjoys the unmatched feeling of leather seating surfaces. The Driver Awareness Package surrounds you in safety with features such as the Lane Departure Warning System, Forward Collision Alert, Side Blind Zone Alert, Rear Cross Traffic Alert, and the Cadillac-first Safety Alert Seat. There's also the Rear Vision Camera that includes guidelines indicating the vehicle's projected path when it is put in reverse.

## PERFORMANCE COLLECTION

### AUTOMATIC PARKING ASSIST

This intelligent system uses sensors to locate a parking spot that will accommodate your CTS, then steers your way into it.

### HEAD-UP DISPLAY

### POWER SUNSHADE FOR REAR WINDOW

The Performance Collection takes CTS to new heights. It starts with a standard 3-D GPS navigation system that includes both voice and text guidance, keeping you solidly on the right path. There's also Cadillac CUE, which brings you your very own concert hall sound with a 13-speaker Bose® Surround Sound system. Bose® Active Noise Cancellation reduces an unwanted narrow band of low-frequency sounds to help quiet the cabin. There's even the convenience of a power sunshade for the rear window, manual sunshades for the rear door windows, interior ambient lighting, tri-zone climate controls and rear heated seats. And Automatic Parking Assist uses sensors to locate an appropriately sized parallel parking space, then steers the vehicle into that space while the driver controls the brakes and transmission.

## PREMIUM COLLECTION

### ULTRA VIEW® SUNROOF

Spanning both rows of seats, this sunroof can fill the cabin with a wealth of natural light, giving the CTS an even more spacious feel.

### AVAILABLE OPUS SEMI-ANILINE FULL LEATHER SEATING

### 12.3" RECONFIGURABLE DISPLAY

Step inside the Premium Collection, and discover a statement in every detail. The cabin is enveloped by fine leather, best viewed in the 20-way adjustable front seats. There's also a choice of exotic wood or authentic carbon fibre trims. Add to all this the 12.3" LCD display that can be customized to one of four personas that mixes traditional vehicle data with navigation, entertainment and stunning 3-D vehicle images. The Premium Collection is further enhanced with stylish aluminum sport pedals and a vast-spanning Ultra View sunroof, which opens your view of the world in CTS.

	CO <sub>2</sub> EMISSIONS (g/km) COMBINED	FUEL CONSUMPTION (l/100 km)			FUEL-EFFICIENCY CATEGORY									
		URBAN	EXTRA-URBAN	COMBINED	BE	CH	DE	DK	ES	FR	LU	NL	UK	
SEDAN 2.0L TURBO RWD	193	12.2	6.3	8.5	E	G	E	E	B	E	E	E	J	
SEDAN 2.0L TURBO AWD	195	12.2	6.4	8.5	E	G	D	E	B	E	E	E	J	

Fuel consumption data and CO<sub>2</sub> emission data are determined according to Regulation (EC) No. 715/2007, taking into consideration the vehicle mass in running order, as specified by the regulation. Additional equipment may lead to slightly higher results than the stated fuel consumption and CO<sub>2</sub> figures. The figures for fuel consumption and CO<sub>2</sub> emissions do not relate to a specific vehicle and are not part of an offer. They are provided only for the purpose of comparison between different vehicle types. Average CO<sub>2</sub> emission of all new cars sold in Switzerland: 148g/km.

Kerb weight (kg): The specified value accounts for a 90 per cent filled fuel tank as well as 68 kg for the driver and 7 kg for luggage. The kerb weight applies to vehicles with standard equipment. Optional equipment may increase this value. Rated power output: For petrol engines, Cadillac recommends using Super unleaded RON 95. Fuel qualities unleaded with RON 95 and above as well as a maximum ethanol volume of 10 per cent (E10) are permissible. Information on power and consumption relates to operation with RON 98 fuel.

PLEASE NOTE: The vehicles shown in this brochure are for illustration purposes only. European specifications may vary. Some illustrations feature special equipment that is not included in standard delivery. The information contained in this brochure was accurate at the time of going to press. We reserve the right to make changes in design and equipment. The colours printed in the brochure only approximate actual colours. Illustrated optional equipment is available at extra charge. Availability, technical features and equipment provided on our vehicles can vary from one market to another and may change without prior notice. Information on recycling design and End of Life Vehicles (ELV) can be found on [cadillaceurope.com](http://cadillaceurope.com). For precise information on the equipment provided on our vehicles, please contact your local Cadillac sales and service specialist.
